WORK EXPERIENCE

Quality Assurance Intern **October - December 2025**
Simplevia Technologies Inc. | *Pasig City*

- Executed functional and regression tests across 13 successive application builds to identify defects and verify that new changes did not disrupt existing features.
- Authored 11 test scripts to standardize testing procedures and support consistent, repeatable checks across application modules.
- Produced 7 user manuals documenting application features and workflows to help end users understand and navigate the system.
- Collaborated with the development team, joining meetings as needed to report test results and flag high-priority issues.

PROJECTS

E-commerce Data Quality & Sales Analysis

- Cleaned and validated 103 e-commerce orders in Python and Pandas, correcting inconsistent formats and resolving missing, invalid, duplicate, and mismatched values.
- Produced reliable sales and return figures, and used Power BI to flag a $10,000 Blender price outlier and an 80% Fiction return rate for review.

Customer Support Operations Analytics

- Analyzed 30,204 calls and 4,832 tickets in Excel using PivotTables, XLOOKUP, and COUNTIFS to track call, agent, and ticket SLA performance.
- Found abandonment reaching 20% on Monday 9-11 a.m. and Field Operations SLA compliance falling from about 88% to 72-74% in Q3-Q4, showing where staffing and capacity were needed.

NewsLens: Bilingual News Headline Classification

- Built a web application that classifies news headlines with a hybrid BiLSTM-SVM model, supporting single headline input or RSS feed integration, with links back to the original sites.
- Achieved 92.95% test accuracy across ten categories, outperforming a TF-IDF SVM baseline (89.73%).

CERTIFICATIONS

- Civil Service Examination Professional Level Passer (Civil Service Commission) – 2026
- SQL and Relational Databases 101 (Cognitive Class) – 2024
- Introduction to Data Science (Cisco) – 2025
- Supervised Machine Learning: Regression and Classification (Coursera) – 2025
- Data Science Tools (Cognitive Class) – 2025
- Getting Started in Google Analytics (Coursera) – 2025
- Data Analysis with Python (Cognitive Class) – 2026

TECHNICAL SKILLS

Data Analytics & ML: SQL, Python, Excel (PivotTables, XLOOKUP, IF), Power BI, Tableau, A/B Testing
Programming & Web: JavaScript, TypeScript, ReactJS, Java, PHP, HTML, CSS
Tools & Platforms: GitHub, VS Code, Figma, Vercel, Firebase, Supabase, Jupyter Notebook, Google Colab

EDUCATION

New Era University **June 2026**
Bachelor of Science in Computer Science
